Attachment 1: Personnel Qualifications

Introduction

In accordance with Stipulation (J.1.a.) of *Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (Effective January, 2009), an annual report of all Army projects and activities carried out on the Kentucky portion of Fort Campbell, and reviewed by the Fort Campbell Cultural Resource Management Program (CRMP) must be submitted to the Advisory Council on Historic Preservation (ACHP), Installation Management Command-Atlantic Region (IMCOM-AR), and the Kentucky State Heritage Council offices. The following report includes a list of projects and activities that have been reviewed for possible effects to historic properties, a determination of those effects, a summary of mitigation and/or treatment measures, and a summary of consultation activities performed by the CRMP in Christian and Trigg Counties, Kentucky.

Planning

Integrated Cultural Resource Management Plan

Fort Campbell CRMP has completed the Integrated Cultural Resource Management Plan (ICRMP) Draft from 2009. The new management plan will be valid for five years (2013-2016). The primary goal of the ICRMP is to function as the guiding document for all management procedures of cultural resources on the Fort Campbell Military Reservation, Kentucky and Tennessee. This document addresses both internal procedure and coordination with external regulatory authorities. The ICRMP will go through yearly review before being completely updated in 2016.

Programmatic Agreements

Fort Campbell has two programmatic agreements for operations that were updated and signed in January 2009. *Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (Effective January, 2009) covers undertakings across the installation. *Programmatic Agreement Between Fort Campbell and the Tennessee State Historic Preservation Office Regarding Development, Construction and Operations at Clarksville Base Historic District* (Effective January, 2009) is for development undertakings within the Clarksville Base Historic District. These programmatic agreements for operations, maintenance and development are valid through 2013. The agreement outlines proper procedure and regulation for managing all undertakings within Christian and Trigg Counties, Kentucky. The CRMP is currently working on a new programmatic agreement for base operations.

Inventory

Overview

Inventory of resources is a requirement under Section 110 of the National Historic Preservation Act. Under stipulations B.4 and B.6 of the *Operations Programmatic Agreement* (OPS PA), the CRMP must conduct a comprehensive inventory of archaeological sites and historic buildings. The CRMP maintains an extensive GIS database to keep track of archaeological sites, historic sites, historic buildings and cemeteries across the installation. This database organizes site information in a format that can be queried for various tasks, such as project review and assessment.

Archaeological Site Inventory

According to the OPS PA, areas that have been heavily disturbed and/or unsafe for survey are excluded from further archaeological survey. These areas include the Cantonment Area and Impact Areas. Some areas that have been previously surveyed for archaeological resources are under further investigation due to various oversights and other documentation issues in the recording of information. Currently, the CRMP has had a total of 47,106 acres surveyed out of the total acreage of the Fort Campbell Military Installation, 106,000 acres. These surveys are complete, with concurrence of the findings by the appropriate SHPO offices. There are also surveys that are in the process of being finalized as well. The areas that have been surveyed but not forwarded to a state SHPO for review and comment are not included in the total survey area acreage total. Figure 1 displays all areas that have been inventoried for archaeological sites, with concurrence (green), and all areas exempt from further inventory; including, the North and Small Arms Impact areas, Cantonment Area and Clarksville Base.

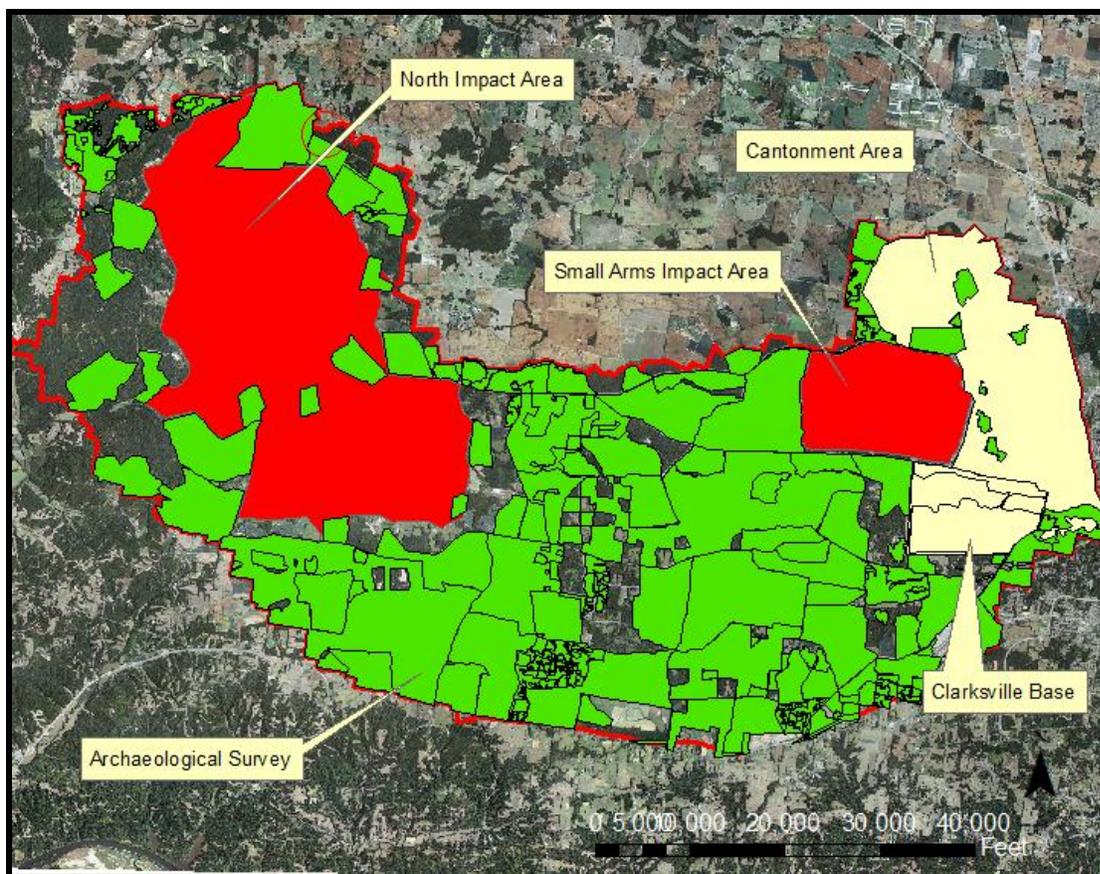

Figure 1. Fort Campbell Military Installation

Historic Buildings

Historic Buildings are characterized by being at least 50 years old, or older, from the current year. Therefore, as buildings approach the historic year range, they will need to be evaluated for eligibility in the NRHP to fulfill requirements of Section 110 of the National Historic Preservation Act.

Historic buildings at Fort Campbell include facilities classified as World War II temporary buildings, residences originally constructed as part of the Capehart and Wherry Housing programs (Unaccompanied Personnel Housing) and structures that were used as Cold War weapons and ammunition storage. All of these buildings are more than 50 years old and are considered through a nation-wide Program Comment that allows the demolition and alteration of these remaining building types at Fort Campbell.

A historic building inventory was completed under the supervision of the Construction Engineering Research Laboratory, USACE. This inventory focused on buildings constructed between 1942 and 1989 that needed to be evaluated for the NRHP. Concurrence on this report was received from the KY SHPO on 26 January 2013.

Cemetery Inventory

The CRMP contains records on the existing historic era cemeteries on post. In Kentucky, these cemeteries are assigned archaeological site numbers when properly documented. Many of the known cemeteries need further research and documentation, while locating unknown cemeteries needs to continue as well

Archaeological Investigation

Overview

In 2012, a report entitled *Phase I Archaeological Survey of 890 Acres Within Training Areas 44B and 45 on the Fort Campbell Military Reservation, Trigg County, Kentucky* was finalized, with concurrence from the KY SHPO office on 3 January 2013.

A Phase I archaeological survey is currently under contract with Fort Campbell. The fieldwork portions of is survey is ongoing and should be completed by May 2013. This Phase I survey is being completed in both Tennessee and Kentucky by Brockington and Associates.

This survey was to perform initial site and artifact detection for both Historic and Prehistoric components. After receiving the draft report for this survey, the CRMP will be forwarding to the Kentucky SHPO for comments and concurrence. As funding allows, more Phase I and Phase II archaeological surveys will continue at Fort Campbell.

Fort Campbell Cultural Resources Support Staff is also currently undertaking small scale Phase II archaeological surveys. These Phase II surveys will be used to deliver eligibility recommendations to the SHPO on sites that have been recommended as *Potentially Eligible* by previous surveys. Formal eligibility recommendations will be forwarded to the KY SHPO upon completion.

Project Review

National Environmental Policy Act (NEPA) Review

Fort Campbell primarily uses NEPA review as a clearing house for all projects within the installation. A critical part of the NEPA process is reviewing projects for potential effects to historic properties.

Record of Environmental Consideration (RECs)

The Record of Environmental Consideration (REC) is an Army process for internal review of proposed projects in accordance with NEPA. The REC requires multiple disciplines to review projects to determine and comment on the potential impacts it may have.

The CRMP reviewed 71 REC documents in Kentucky, between January 2012 and December 2012. Most frequently, the proposed undertaking is reviewed internally. RECS usually have no

effect to historic properties or can be modified, through coordination with the FTC-CRO, by the proponent to avoid effects to historic properties.

A list of RECs reviewed and finalized by the CRMP is attached. RECs are logged in fiscal years; therefore, fiscal years 2012-2013 will be listed. All of the REC documents listed in this section had *No Effect to Historic Properties*.

Individual Section 106 Consultation

Under Stipulation C.2 of the OPS PA, when undertakings are not exclusively reviewed by Fort Campbell personnel, individual Section 106 consultation, per 36 CFR 800, with the KY SHPO must be performed before an undertaking can proceed. The CRMP completed four (4) formal Section 106 consultations with Kentucky.

A list of individual Section 106 Consultations completed is attached. When a Section 106 Consultation is completed, it is forwarded to the SHPO for concurrence with the Army effect determination.

Tennessee One Call

The Tennessee One Call is an automated system to serve as a notification for any underground digging that will occur on the installation, in both Tennessee and Kentucky. This automated system will notify contractors of any underground utilities buried within the project area. The CRMP receives automated Tennessee One Calls tickets, via email, referencing geographical locations for review for potential impacts to cultural properties. Most Tennessee One Calls are placed for repair and/or maintenance to utility lines and television satellite installation. The CRMP reviewed 2461 Tennessee One Calls in 2012, all of which were determined to have *No Effect to Historic Properties*.

Formal Correspondence

The CRMP also developed formal correspondence packages with the KY SHPO regarding activities not covered through REC documents or Section 106 Consultations. These projects include archaeological survey reports, architectural evaluations, and management documents. A list of correspondence is attached to this report

Scout RECCE Range

On May 31, 2012, the *Memorandum of Agreement Between the United States Army Garrison Fort Campbell and the Kentucky State Historic Preservation Officer Regarding the Development of a Scout RECCE Range at Fort Campbell, Trigg County, Kentucky* was signed by the KY SHPO. This MOA was created in response to the construction of a training range that will have an *Adverse Effect* on historic properties. The Area of Potential Effects (APE) for the undertaking includes ten (10) archaeological sites and one (1) historic era cemetery. A mitigation plan is currently being developed with the SHPO and other consulting parties and will be completed within five (5) years of the last signatory part signature.

Anticipated Future Work

One of the main goals of the CRMP is to finalize past survey projects and update the corresponding databases. The cultural resource program will continue to perform site and cemetery monitoring to verify management strategies are being carried out. The staff will also monitor cultural properties that may be effected by installation projects.

Having the most up to date information is a key component in handling projects quickly and reliably. The CRMP will also be working with contracting agencies, Brockington and Associates in finalizing reports and deliverables from their field surveys.

Conclusion

With the pending update of the 2014 Programmatic Agreement and implementation of the ICRMP, the CRMP can foster consistent and appropriate methods for cultural resource management. The Fort Campbell Cultural Resource Management Program hopes for continued improvement and efficiency in the management of cultural properties within the installation boundaries.

List of Record of Environmental Considerations

Determined as having No Effect to Historic Properties

January 2012-December 2012

REC # 12-	Title
30	Landgraf Hangar Extension Bldg 7264-MOD
31	Relpace Culert TA 28 (Indian Mound) Access Roads
35	FY12 Programmatic Range Maintenance
38	Repair Arms Room in BLDG 6927 (FE10134 2J)
45	Construct 19 ASOS Expansion Facilities- MOD (ACC123103)
46	Construct SOF Battalion Complex- MOD (PN69447 and PN 76365)
47	Agricultural Lease Program Renewal of 50 Parcels throughout the Rear Maneuver Areas
49	Construct Gravel Access Trail and Helipad around Old Range 41
52	FY13 Force Structure Actions - Loss of 604th SCCT and 672nd CCT at Fort Campbell
53	FY13 Stationing Actions - Extension of the Physical Disability Evaluation System (PDES) to Integrate the Department of Veterans Affairs
54	Construct TEMFs for 101st CAB - MOD (PN 64296)
58	Reforestation Using Shortleaf Pine
62	Construct 160th SOAR Redundant Pathway to RSU 6079
64	Firing Point Access Roads for 13A, 27D, 43A
66	Relocation and Construction of TACAN Tower
65	FY14 Force Structure Actions for 160th SOAR(A)
69	FY13-1 Force Structure Actions - Activating the 922nd CCBn (WJXEAA)
70	Repair and Expand IDES Clinic Building 5980 (GB-0021-2J)
75	Construct High School and Demolition of Existing Competitive Sports Field
76	Construct Elementary School and Emolition of existing Elementary School
78	Construct 18th Weather Squadron Facility- PN 78778
79	Widening Glider Road (FE10375-1j, P2#370954-2904DH)
81	FY13-1 Force Structure Actions at Fort Campbell-MEDCOM (W2L8AA)
83	FY 2013 Hardwood and Pine Timber Harvests
84	Construct 19 ASOS Expansion Facilities- MOD (ACC123103)
89	Replace Radar Site Building OM001
90	Site Preparation for 4th BCT Embedded Behavioral Health Clinic Relocatable (IJO GB 00021 2J)
92	Site Preparation for 2nd BCT Embedded Behavioral Health Clinic Relocatable (IJO GB 00019 2J)
93	Site Preparation for 1st BCT Embedded Behavioral Health Clinic Relocatable (IJO GB 00018 2J)
94	Construct 101 st CAB TEMF (PN 18646)- MOD
97	Install Parking along 35th Street
96	Renovate Latrine and Affected Areas in Building 3780
98	Borrow Pit Road Repairs (FE 10326 1J)
101	Stormwater Infrastructure Maintenance
102	Repair Building 2840 PX Food Court Flooring and Walls
104	Remediation of Firing Points in Training Areas 44C and 44E
105	Training Area 43A Boundary Road
107	Foot March Route Remediation
112	Construct Parking Area Behind Building 6088 (DB 77027)
114	Veghel Drop Zone Ficed Winged Runway Clearing and Remediation

115	Renovated Building 7103B
116	FY12 Facility Reduction Program-MCA Buildings
117	Construct SOF MH-47 Hangar – MOD (PN 76374)
118	Pave Parking Lot Behind Building 98 - (BX 00008 1J)
119	Military Retransmission Training Sites
120	Pave Parking lots at 6896
124	Lease of Land to AT&T Wireless
125	Communications for New School Building 78
126	Demolish Existing Steam Pits Located in 6900 Block (FE-10411-0J)
127	Campbell Crossing Ground Lease Modification
129	Design and Construct Physical Therapy Building (UB 10077 2J)
135	Stationing Package for FORSCOM FY13-5 Force Structure Actions
130	Site Preparation and Installation of a Re-locatable Classroom at High School Building 902
131	Install Pavement at CAAF Cargo Ramp
133	Install Optical Cable at Building 6530 (PR 10196184)
134	Renovate Building 7226 (UB 10115 1J)
137	Construction of Building 7103
138	Re-route Polk Road (FE 10364 2J)
139	Renovate 6923 First Floor (PC-0001-2J)
143	Fire Management Program Prescribed Burn Areas
146	Remove Heating Oil Tanks (UST)- Project Bumber 8-52-96X
147	FY 13 Phase I Archaeological Survey of 2475 Acres
150	Soldier and Family Fitness Trail Group
151	FY13 Range and ITAM Open Field Management
REC # 13-	Title
1	ACAP CDL Program
2	Repair Building 7217 (FE-10548-2J)
3	Repair Building 6479 (TE-00006-2J)
4	Repair Building 6478 (TE-00007-2J)
8	Multi-purpose Machine Gun Range (MPMG) in Training Area 41
13	Relocation of Existing TACAN
16	Construct 18 th Weather Squadron Facility (PN 78778) MOD

List of Section 106 Consultations

January 2012-December 2012

REC # 12-	Title	Result	Date of Concurrence
21	Range Powerlines	<i>No Adverse Effect</i>	26 April 2012
74	New School Construction	<i>No Adverse Effect</i>	16 November 2012
99	Bldg 7202 Demo	<i>No Adverse Effect</i>	12 September 2012
128	Fire Station Addition	<i>No Adverse Effect</i>	17 October 2012

Formal Correspondence
