Introduction

In accordance with Stipulation (J.1.a.) of *Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (Effective January, 2009), an annual report of all Army projects and activities carried out on the Tennessee portion of Fort Campbell, and reviewed by the Fort Campbell Cultural Resource Management Program (CRMP) must be submitted to the Advisory Council on Historic Preservation (ACHP), Installation Management Command-Atlantic Region (IMCOM-AR), and the Tennessee State Historic Preservation Office. The following report includes a list of projects and activities that have been reviewed for possible effects to historic properties, a determination of those effects, a summary of mitigation and/or treatment measures, and a summary of consultation activities performed by the CRMP in Montgomery and Stewart Counties, Tennessee.

Planning

Integrated Cultural Resource Management Plan

Fort Campbell CRMP has finalized the Integrated Cultural Resource Management Plan (ICRMP) after input from the TN SHPO in May 2013. The management is valid for five (5) years and will be completely updated in 2018. Until that time, the ICRMP will be reviewed yearly. The primary goal of the ICRMP is to function as the guiding document for all management procedures of cultural resources on the Fort Campbell Military Installation, Kentucky and Tennessee. This document addresses both internal procedure and coordination with external regulatory authorities.

Programmatic Agreements

Fort Campbell has two programmatic agreements for operations that were extended and resigned in December 2013. *Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (Effective January, 2009) covers undertakings across the installation. *Programmatic Agreement Between Fort Campbell and the Tennessee State Historic Preservation Office Regarding Development, Construction and Operations at Clarksville Base Historic District* (Effective January, 2009) is for development undertakings within the Clarksville Base Historic District. A separate annual report is submitted for undertakings at Clarksville Base Historic District. These programmatic agreements for operations, maintenance and development are now valid through January 2014. The agreement outlines proper procedure and regulation for managing all undertakings within Montgomery and Stewart Counties, Tennessee. The CRMP is currently working on a new programmatic agreement for base

operations. Fort Campbell will be contacting the TN SHPO to provide comments and suggestions regarding the development of the new Programmatic Agreement during this one (1) year extension.

Inventory

Overview

Inventory of resources is a requirement under Section 110 of the National Historic Preservation Act. Under stipulations B.4 and B.6 of the *Operations Programmatic Agreement* (OPS PA), the CRMP must conduct a comprehensive inventory of archaeological sites and historic buildings. The CRMP maintains an extensive GIS database to keep track of archaeological sites, historic sites, historic buildings and cemeteries across the installation. This database organizes site information in a format that can be queried for various tasks, such as project review and assessment.

Historic Buildings

Historic Buildings are characterized by being at least 50 years old, or older, from the current year. Therefore, as buildings approach the historic year range, they will need to be evaluated for NRHP eligibility to fulfill requirements of Section 110 of the National Historic Preservation Act.

Historic buildings at Fort Campbell include facilities classified as World War II temporary buildings, residences originally constructed as part of the Capehart and Wherry Housing programs (Unaccompanied Personnel Housing) and structures that were used as Cold War weapons and ammunition storage. All of these buildings are more than 50 years old and are considered through a nation-wide Program Comment that allows the demolition and alteration of these remaining building types at Fort Campbell.

A historic building inventory was completed under the supervision of the Construction Engineering Research Laboratory, USACE. This inventory focused on buildings constructed between 1942 and 1989 that needed to be evaluated for the NRHP. Concurrence on eligibility determinations was received from the TN SHPO on 20 March 2013.

Architectural Surveys

Fort Campbell Schools

During 2013, all Fort Campbell schools were evaluated for eligibility for listing on the National Register of Historic Places (NRHP). One (1) school was evaluated in Tennessee. It was determined that Jackson Elementary was Not Eligible for listing on the National Register of Historic Places (NRHP), by Fort Campbell. Concurrence on eligibility determinations was received from the TN SHPO on December 5, 2013.

Archaeological Investigation

Overview

According to the OPS PA, areas that have been heavily disturbed and/or unsafe for survey are excluded from further archaeological survey. These areas include the Cantonment Area and Impact Areas. Some areas that have been previously inventoried for archaeological resources are being resurveyed due to various oversights and other documentation discrepancies of previous work. As funding allows, more Phase I and Phase II archaeological surveys will continue at Fort Campbell.

Current Investigations

In 2013, a draft report entitled *Phase I Archaeological Survey of 1,261 Acres in Montgomery and Stewart Counties, TN (Pritchard et al. 2013)* was sent to the TN SHPO. Comments were received and the final report is being produced. Upon finalizing the document, a final report will be submitted to the TN SHPO for review and site eligibility determinations.

A Phase I archaeological survey is currently under contract with Fort Campbell. The fieldwork portions of is survey is ongoing and should be completed by May 2014. This Phase I survey is being completed in both Tennessee and Kentucky by the Louis Berger Group. This survey was to perform initial site and artifact detection for both Historic and Prehistoric components. After receiving the draft report for this survey, the CRMP will be forwarding to the appropriate state SHPO for comments.

Phase II archaeological evaluations are also under contract with Fort Campbell. The Phase II testing will also be performed by The Louis Berger Group. The project is to evaluate four (4) sites within the boundary of Clarksville Base Historic District. After receiving the draft reports for these surveys, the CRMP will be forwarding to the TN SHPO for comments.

Fort Campbell Cultural Resources contract personnel are also undertaking small scale Phase II archaeological surveys. These Phase II surveys will be used to deliver eligibility recommendations to the SHPO on sites that have been recommended as *Potentially Eligible* by previous surveys. Formal eligibility recommendations will be forwarded to the TN SHPO upon completion.

Project Review

National Environmental Policy Act (NEPA) Review

Fort Campbell primarily uses NEPA review as a clearing house for all projects within the installation. A critical part of the NEPA process is reviewing projects for potential effects to historic properties.

Record of Environmental Consideration (RECs)

The Record of Environmental Consideration (REC) is an Army process for internal review of proposed projects in accordance through NEPA. The REC requires multiple disciplines to review projects to determine and comment on potential impacts.

The CRMP reviewed 120 REC documents in Tennessee, between January 2013 and December 2013. Most frequently, the proposed undertaking is reviewed internally and is modified by the proponent to avoid adverse effects to historic properties.

According to Stipulation 2.a. of the OPS PA, the FTC-CRO staff may inspect small areas not surveyed for archaeological materials to determine the level of disturbance and the likelihood of any significant archaeological sites are remaining. Three undertakings, *REC 13-140 ASP Facility Construction (HA000621J, HA000631J)*, *14-001 Construct Ground Based Sensor Array*, and *14-032 Cole Park Secondary Access Road*, fell under stipulation 2.a. The results of this fieldwork are located in attachments 1, 2 and 3.

A list of RECs reviewed and finalized by the CRMP is attached. RECs are labeled in fiscal years; therefore, fiscal years 2013-2014 will be listed. All of the REC documents listed in this section had *No Effect to Historic Properties*.

Individual Section 106 Consultation

Under Stipulation C.2 of the Ops PA, when undertakings are not exclusively reviewed by Fort Campbell personnel, individual Section 106 Consultation, per 36 CFR 800, with the TN SHPO must be performed before undertaking can proceed. The CRMP completed three (3) formal Section 106 consultations with Tennessee. All Section 106 consultations for Tennessee were determined to have *No Adverse Effect*

A list of individual Section 106 Consultations completed is attached. When a Section 106 Consultation is completed, it is forwarded to the SHPO for concurrence with the Army effect determination.

Formal Correspondence

The CRMP also developed formal correspondence packages with the TN SHPO regarding activities not covered through REC documents or Section 106 Consultations. These projects include archaeological survey reports, architectural evaluations, and management documents. A list of formal correspondence is attached to this report.

Tennessee One Call

The Tennessee One Call is an automated system to serve as a notification for any underground digging that will occur on the installation, in both Tennessee and Kentucky. This automated system notifies callers of any underground utilities buried within the project area. The CRMP receives automated Tennessee One Calls tickets, via email, referencing geographical locations for review for potential impacts to cultural properties. Most Tennessee One Calls are placed for

repair and/or maintenance to utility lines and television satellite installation. The CRMP reviewed 3,393 Tennessee One Calls in 2013, all of which were determined to have *No Effect to Historic Properties*.

Unauthorized ATV Trail:

In November 2013, the CRMP was notified of a trail constructed in Training Area 47 for ATV Safety Training. The trail was constructed at the request of Range Division and was not reviewed by the environmental division. On November 22, 2013, CRMP staff inspected the trail for potential impacts to historic properties. No historic properties were effected during construction of the ATV trail. The TN SHPO was notified of the trail construction (via phone) on November 25, 2013. Currently, the CRMP is coordinating with Range Division to ensure proper review protocols are utilized and that all future projects are reviewed by the Environmental Division. Additionally, the Environmental Division will be developing stricter review protocols to prevent unauthorized undertakings in the future. The CRMP will be contacting the TN SHPO to discuss new protocols. A formal Section 106 Consultation Package will be completed with specific details regarding the construction of the trail and measures taken by the CRMP staff to assess potential impacts to the area.

Conclusion

With the pending update of the Programmatic Agreement and implementation of the ICRMP, the CRMP can foster consistent and appropriate methods for cultural resource management. The CRMP will be coordinating with the TN SHPO on Programmatic Agreement updates and ongoing archaeological investigation. The Fort Campbell Cultural Resource Management Program hopes for continued improvement and efficiency in the management of cultural properties within the installation boundaries.

List of Record of Environmental Considerations

Determined as having No Effect to Historic Properties

January 2013-December 2013

REC #	Title 13-
009_MOD	Emergency Sinkhole Repair Along Fort Campbell Rail Line along Outlaw Field Road
17	Fort Campbell Fitness Trail Loop and Clarksville Base Nature Trail Loop MOD (PN 82240)
17_MOD	Soldier and Family Fitness Trail Loop
18	160th SOF Warrior Challenge Route
19	Update Existing Land-Use Lease Agreement
20	Geo-Tech Sampling at Two RSU Locations for AT&T
22	Repair Taylor Dental Clinic - Building 5580
23	Construct Annex for NEC Pre-Engineered Building (EH 90710)
24	NOSC Warehouse (PN 65122)
27	CAAF and SAAF RSU Communications Shelters (NEC ITEC-001)
29	Renovate Facilities and Construct Additional Parking (Building 7543)
30	Build CGQ in Cole Park
30_mod	Build CGQ in Cole Park
31	Construct Gravel Maneuver Trails on Grand Dad Bluff Trail (Training Area 49)
38	Lake Taal Dam Repair (FE 10302 9J)
39	I3MP Cantonment Construction
43	Replace Sauna in Estep Gym (Building 2270)
44	Construct Elevated Platform in Training Area 9A
46	Construct Expansion to Building 7539 (EH 41005 3J)
47	Trap and Remove Beavers in TA 32
49	Install Three Geothermal Test Wells
49_MOD	Install Three Geothermal Test Wells
50	FY17-1 Force Structure Actions
51	Grading Gravel Roads
52	Building 7541 Fire Suppression (EH 4115J)
53	Stormwater Infrastructure Maintenance MOD
54	Remove and Replace Grease Trap at Cam Hinsch DFAC (HA000047-2J)

56	Asphalt Road Shoulder Maintenance
57	Los Banos Manuever Trail
59	Snow and Ice Removal
61	Unattended Fueling for AAFES Gas Facilities on Fort Campbell
63	FY13 Programmatic Range Maintenance
64_MOD	Construct Unmanned Aerial System Complex and Rotary Aircraft Maintenance Facilities at SABRE Army Heliport - MOD (PN 69501 & 76239)
65	Construct Addition to Building 2434
67_MOD	Construct Golf Course Maintenance Facilities-MOD
68	Renovate Buildings to Support Administrative Use-MOD
69	Comcast Facility Upgrades- Building 923
70	Demolition of Eleven Buildings and Construction of Tactical Equipment Maintenance Complexes

Dear Mr. McIntyre:

In accordance with Stipulation (J.1.a.) of *Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (Effective January 2009) an annual report of all Army projects and activities carried out in the Tennessee portion, and reviewed by the Fort Campbell Cultural Resource Management Program (CRMP), must be submitted to the Advisory Council on Historic Preservation, Installation Management Command-Atlantic Region and the Tennessee State Historic Preservation Office. The following report includes a list of projects and activities that have been reviewed for possible effects to historic properties, a determination of those effects, a summary of mitigation and/or treatment measures, and a summary of consultation activities performed by the CRMP in Montgomery and Stewart Counties, Tennessee for calendar year 2013.

It is the determination of the US Army that this report meets the requirements of Stipulation (J.1.a) of the aforementioned agreement for calendar year 2013. Please accept the enclosed annual report as meeting compliance with Stipulation (J) of the aforementioned agreement.

If you have any further questions, regarding this matter, please contact Mr. Ronald Grayson, Cultural Resources Program Manager at ronald.i.grayson.civ@mail.mil, or telephone 270-412-8174.

Sincerely,

David L. Dellinger
Colonel, U.S. Army
Commanding
