

USDA Natural Resources Conservation Service Administrative Transformation

Job Posting: Supervisory Business Manager GS-301-13 (Assistant State Conservationist for Management and Strategy)

This position, located in multiple local support units, opens May 22 and closes June 5, 2015.

This announcement is for Portland, OR; Spokane, WA; and Casper, WY.

The incumbent of this position serves as the Supervisory Business Manager in the office of the State Conservationist (STC), within one of the state offices of the Natural Resources Conservation Service (NRCS), United States Department of Agriculture (USDA). The incumbent has responsibility for managing a unit within the state that is responsible for integrating conservation strategy/planning and financial, personnel, and other resources and business and locally-based administrative services necessary to deliver on the mission of the state, area and field offices. The incumbent provides supervision, direction, and management of a subordinate staff consisting of the Financial Resources Specialist, the Business Services Partner, and other professional, administrative, or clerical positions as allocated within the state office.
