# Introduction

Fort Campbell is committed to building a strong and healthy community that supports Military Service Members, Families, DA Civilians and Retirees. The Fort Campbell Community Resource Guide is a reference tool for contacting agencies responsible for providing Families assistance. Off-post agencies are occasionally listed to provide a full range of resources available within the Fort Campbell area.

## HOW THIS RESOURCE GUIDE IS ORGANIZED

The Community Resource Guide is organized as a reference tool for individuals to contact agencies that offer support in different areas. Please use the table of contents to identify a topic and locate available resources in the community. Each page/section is organized as follows:

- I. Topic listed
- II. Primary staff agencies responsible for assistance in providing services
- III. All services available with brief description, address and phone number

## UNDERSTANDING INTERVENTIONS & PREVENTIONS

An intervention is an orchestrated attempt by one, or often, many people (usually Family and friends) to get someone to seek professional help with an addiction or some kind of traumatic event or crisis. The term intervention is most often used when the traumatic event involves addiction to alcohol, drugs, suicidal ideations or other items.

A prevention is a program of activities directed at improving general well-being and often involving specific protection for selected purposes or diseases, such as immunization; while primary prevention is the avoidance of the onset of disease by behavior modification (e.g. limiting alcohol intake) or treatment (e.g. routine childhood immunization).
