History

Fort Campbell was established in 1942 and was named after William B. Campbell, a Tennessee statesman and Brigadier General of the United States volunteers during the Civil War. On August 19, 1942 the first Commander, Maj. Gen. William C. Lee, promised his new recruits that the 101st has no history but it has a "Rendezvous with destiny." As a division, the 101st has never failed that prophecy. During World War II, the 101st Airborne Division led the way on D-Day in the night drop prior to the invasion. When surrounded at Bastogne and asked to surrender by the German forces, Brig. Gen. Anthony McAuliffe answered "Nuts", and the Screaming Eagles fought on until the siege was lifted. For their valiant efforts and heroic deeds during World War II, the 101st Airborne Division was awarded four campaign streamers and two Presidential Unit Citations. For more information, go to the Fort Campbell homepage.

Mission

The mission of the 101st is to train and maintain combat readiness needed to deploy rapidly anywhere in the world, to fight and win, and to sustain combat operations. The 101st Airborne Division (Air Assault) is formed of four Brigades Combat Team (BCT) plus 101st Aviation Brigade, 159th Aviation Brigade, 101st Sustainment Brigade and several separate commands.

The six major tenants units at Fort Campbell include 5th Special Forces Group (Airborne), 160th Special Operations Aviation Regiment (Airborne), U.S Army Medical Activity, TN Valley District Corps of Engineer, Veterinary Command and U.S Army Dental Activity. Refer to Major Unit Listing for additional information.

Sponsorship

Settling into your new location and your new unit takes time. MilitaryINSTALLATIONS and Plan My Move are designed to assist you with information about your new location. Complementing Plan My Move and MilitaryINSTALLATIONS each of the military Services has a Sponsorship Program which is very helpful in providing new unit information. If
you want to learn how to be a sponsor, you can take a short training module found on MilitaryINSTALLATIONS, or if you are a Sponsor, you can use the eSponsorship Application & Training a secure website designed to train you on your sponsorship duties and provide sample materials for your use when communicating with your newcomer.

The purpose of the Sponsorship program is to:

Provide a sense of belonging
Ease the transition for inbound service members or civilians and their family members
Increase productivity
Reduce culture shock
Help newcomers make informed decisions
Cultivate new friendships
Improve morale

A sponsor is someone from your new unit who is assigned to assist you in settling into your new location. You must request a sponsor through your unit. You can learn more about the sponsorship program and how to apply through your Relocation Assistance Program or the Family Center at your new installation.

Your Service will appoint your sponsor in writing. He/she will be the same or close to your rank and the same marital status, if at all possible. This person will be knowledgeable about the local community and the installation; available to assist you and your family for at least two weeks post arrival, and be someone who is positive and outgoing.

A sponsor's duties include:

Contacting you and your family by letter of introduction or e-mail upon learning of your assignment to the installation. Following up with a personal phone call after contact has been made.
Sending information about the installation/area which you may require, or putting you in touch with the resources on the web and at the installation that provide current, complete and up-to-date information such as those provided by the Relocation Program.
Answering any questions which you or your family may have, or, again, providing the proper resources to answer those questions.
Confirm transportation and lodging arrangements.
Assisting with obtaining a Post Office Box for your mail.
Meeting you and your family upon arrival.
Accompanying you to your check in point for the unit.
Introducing you to the Family Center and lending closet
Providing essential service locations such as commissary, exchange, gas station, and bank.
Being available when you arrive at your installation to meet you, show you around, and help you through in-processing.

If you have not been assigned a sponsor, or have not been contacted as of yet, request one by contacting your gaining command or unit. If after contacting your new command you find difficulties in obtaining a sponsor, contact your Relocation Assistance Personnel for additional help with your move.

Service specific processes for requesting a Sponsor include:

**Army and Defense Logistics Agency:** AR 600-8-8 outlines procedures for DA Form 5434, Sponsorship Program Counseling and Information Sheet. Sponsorship is mandatory for first term Soldiers. All Soldiers, private through colonel (excluding those completing advanced individual training (AIT) and those PCSing to long term schools) and civilian employees through grade 15 may participate in the advance arrival sponsorship program. Reactionary Sponsorship is available for individuals arriving at an installation without a sponsor. Contact the gaining unit to request a sponsor.

**Air Force:** Gaining Unit Commander Support Staff/Military Personnel Section will assign a sponsor upon receipt of assignment notice. Assigned sponsor will then make contact with the inbound member.

**Navy:** OPNAV INSTRUCTION 1740.3C prescribes procedures regarding Command Sponsor and Indoctrination Programs. This Program is designed to facilitate the adaptation of Sailors and their families into new working and living environments, to minimize the anxiety associated with a Permanent Change of Station (PCS) move, and afford Sailors and their families the greatest opportunity for a successful and productive tour of duty. Command sponsor and indoctrination responsibilities begin upon receipt of PCS orders and continue until the Sailor has become an integral part of the new command and is fully cognizant of all policies, programs, services, and responsibilities available through the command. Commanding Officers shall establish a Command Indoctrination Program to include the delivery of the Navy Pride and Professionalism training per this instruction. COs should ensure all incoming personnel receive command indoctrination training within 30 days of arrival or within 3 drill weekends Enclosures (1) and (2) of OPNAVINST 1740.3C outline responsibilities and provide guidance for these programs. Assistance to local commands regarding the Command Sponsor Program is through the Fleet and Family Support Center (FFSC) Relocation Assistance Program staff.

**Marine Corps:** Gaining Unit Commander will assign a sponsor on request. Overseas commands should assign a
sponsor automatically, however if one is not assigned, send a request to the gaining command using the Sample Sponsorship Request form.

Sponsors' responsibilities and abilities to be available will vary from installation to installation, depending upon the priority which the installation and unit commanders give to the program; however, the Services are making the Sponsorship program a priority as research has shown the many benefits of good sponsorship to service, family members and youth.

**Youth Sponsorship**

The Youth Sponsorship Program depends on the availability of youth who volunteer to become sponsors. The Youth Services topic should explain the Youth Sponsorship program at your new installation, but if it does not answer all of your questions, contact your Relocation Manager to inquire about the program and acquiring a youth sponsor.

### Check-in Procedures

#### Inprocessing Procedures

All incoming personnel must report to Replacement Detachment 6916 Desert Storm Ave and 34th Street to sign in, 24 hours a day and 7 days a week. All Soldiers must report in between 6:00 a.m.-5:30 p.m. and in Army Combat Uniform (ACU’s). Detachment cadre will coordinate in-processing for newly arrived Soldiers, and provide billeting for unaccompanied staff sergeants and below. Billeting is available in the Replacement barracks for unaccompanied sergeants and E5 and below. Soldiers accompanied by their families, and Soldiers in ranks of sergeant first class and above are authorized billeting on a space available basis in the Intercontinental Hotel Groups (IHG) located at Screaming Eagle Blvd & Bastogne Ave.

For more information on Kalsu Replacement Company, click here.

Your in-processing is organized to reduce the time needed to process into post. In-processing takes approximately 6-8 days. Haircuts and uniforms will be inspected daily to IAW Divisions Standards. While in-processing, your records are
updated, any pay due is made, and your new unit of assignment is given to you. Dental exams and records are also updated. Information regarding assignment of on and off post housing is provided by the Fort Campbell Family Housing and Housing Services Office both located in Bldg 850 16th Street.

Qualified service members (those who are typically not assigned to barracks or who have not already been assigned family type quarters) can be authorized Permissive Temporary Duty (PTDY) for up to 10 days to find a home in conjunction with a PCS move between and within the 50 states & District of Columbia. Permissive means there is no allowance for transportation or per diem, but members are not charged leave during this time. Service members may request this PTDY from their first O-5 (LTC) Commander anytime after they receive their PCS Orders. Since there is no travel entitlement authorized with PTDY, most service members elect to use this benefit after departing their old duty station, and before signing in at their new duty station.

If you are authorized Permissive TDY (PTDY) from your prior duty station, you must report to Fort Campbell Housing Services (FCHSO) located at 850, 16th Street to have your orders stamped on the day your permissive TDY begins. You will receive a housing stamp and date on your DA Form 31 which will sign you out on PTDY. DO NOT SIGN INTO THE REPLACEMENT COMPANY! Your PTDY will end on the date specified on your DA Form 31, or the date you sign into Fort Campbell, whichever comes first. If the leave form is not properly stamped and dated by FCHSO, Finance will charge you regular annual leave instead of PTDY.

NOTE: IAW AR 600-8-10, para 5-31a.: “Commanders of units normally commanded by officers in the rank of lieutenant colonel or higher, are authorized to approve when period of absence is 10 days or less.”

If you do not have approval from the losing duty station before arriving to Fort Campbell, it is recommended that that you sign into Replacement first to in-process and then once assigned to a unit. Permissive Temporary Duty (PTDY) can be requested from the unit commanders.

The “Soldier & Family Newcomers’ Orientation” is an interactive Family Orientation to welcome and inform newly arrived Soldiers and Family Members of resources available at Fort Campbell. ## Motor Vehicles

### Registration & Licensing Requirements

Tennessee State law requires you to have sufficient liability insurance and a valid driver’s license in order to operate a vehicle. The term “vehicle” generally includes automobiles, motorcycles, vans, trailers and boats regularly parked or garaged overnight. Further, your vehicle must be properly registered. Even though you are in the Military, you may be required to register your vehicle in-state and obtain an in-state license within a few months of moving. Access complete information on insurance, driver’s licensing, and where and how to register your vehicle by visiting the State Department of Motor Vehicles website.

### State Laws

You and your passengers must always wear seat belts while driving, you will be ticketed and issued heavy fines if seat belts are not secured. State law requires that all children under 8 years of age be properly restrained in child seats. Some states also require younger, smaller children to sit in the back seat.

Motorcycles and their operators are subject to special laws. If you own and operate a motorcycle, you must comply with those laws. Visit the State Department of Motor Vehicles website for more information. Many States and local jurisdictions have strict laws about the use of cell phones and other digital devices while driving. Research these laws on the State Department of Motor Vehicles website. Tickets will be issued and fines assessed for violating these laws. Play it safe and always use a “hands free” device if you must use a cell phone or other PDA while driving. Hands-free devices must be used while operating a motor vehicle on ALL military installations worldwide.

### Base Regulations

Unless otherwise posted, the speed limit on Fort Campbell is 25 mph. Fort Campbell is a restricted access post. Fort Campbell recently changed its policy for vehicle registrations for on post. For those having a military ID card or a Common Access Card (CAC) you don’t need to register your vehicle at vehicle registration building. For visitors, and non military ID card/CAC card, you must have a DD Form 2220 (Post Decal) or a temporary visitors pass before gaining access to Fort Campbell. For more information contact (270) 798-5049.

### Obtaining Base ID Sticker or Visitors Pass

Individuals who do not have a military ID card/CAC card would need to register their automobiles or need visitor passes may pick one up at gate 4 visitor’s center (1st building on the right when you enter gate 4) or gate 7 or building 94 (next to clothing & sales). In order to obtain an ID sticker, you need to show your vehicle registration, proof of insurance, and valid driver’s license. If you are going to register a motorcycle on Fort Campbell ensure you have the previous documents plus you need a motorcycle endorsement on your state drivers license and motorcycle safety foundation card. If you need the MSF card, you can register online for the motorcycle safety course.

### Motorcycles

All personnel assigned to living on or employed at Fort Campbell must register their motorcycles within 10 days of signing into Fort Campbell. Required documentation includes:

A valid state driver’s license with a motorcycle endorsement.

Proof of current and valid insurance for the motorcycle being operated. Minimum coverage is $25,000 personal injury coverage per person, $50,000 personal injury coverage per accident, and $10,000 property damage. This insurance must be maintained at all times while the motorcycle is being operated on Fort Campbell.

Provide a current certificate of state registration or lease agreement, a power of attorney or a notarized statement from the owner that the motorcycle operator is authorized to operate the vehicle and the inclusive dates of such operation.

Motorcycles owned by individuals that have had their installation driving privileges suspended or revoked cannot be re-registered during the period of suspension/revocation.

Individuals applying to register motorcycles must provide a certification of completion of an approved Motorcycle Riders Safety Course.

Any changes in the registrant’s name, address/unit, insurance coverage or motorcycle description will be reported to the Vehicle Registration Office.

The hours for gate 4 visitor’s center/vehicle registration is Monday thru Friday 6:00 a.m. - 6:30 p.m., Saturday 9:00

DOD/DA identification card holders operating a rental vehicle with their current/valid rental agreement may use the agreement in lieu of a visitor's pass for access, (the rental agreement needs to be in the DoD ID card holders name – or listed as an authorized driver). DOD/DA identification card holders operating a vehicle with their valid temporary State registration plates may use their temporary registration in lieu of a visitor's pass. CAM Regulation 190-5 will cover any questions that may pertain to Fort Campbell Motor Vehicle traffic Regulations.

Tennessee and Fort Campbell Child Restraint Law

(Note: this is the law you must comply with anywhere on post or in Tennessee.)

Children under one year of age or weighing less than 20 pounds must be put in a backward-facing child-passenger restraint system in the rear seat if available. Children 1-3 years old and weighing 20 pounds or more have to be in a child safety seat in a forward facing position in the rear seat, if available.

Children 4-8 years old and less than five feet tall must be in a belt positioning booster seat in the back seat, if available. Provisions are made for the transportation of children in medically prescribed modified child restraints.

Children 9-12 years or any child through 12 years of age measuring 5 feet or more in height must use a seat belt system and be placed in the rear seat, if available.

Children 13-15 must use a passenger restraint system.

Also, remember that the driver of the car is responsible to ensure that children under the age of 16 are properly restrained and may be charged for violation of the law. If the child’s parent or legal guardian is presenting the car, but not driving, the parent or legal guardian is also responsible for making sure that the child is properly transported and may also be charged for violation of the law.

Ensure that all children are appropriately buckled in a vehicle at all times.

Obtaining a Driver’s License

Anyone who moves to Tennessee and has a valid driver’s license from another state or country must apply for a Tennessee driver’s license (or CFD) if they: live in the state longer than 30 days OR are working in Tennessee or would otherwise qualify as a registered Tennessee voter. The EXCEPTION to this policy are active duty service members. Spouses who reside in Tennessee and work in Tennessee MUST have a Tennessee driver’s license. Education - Local Schools

How do I choose a school?
Choosing the right school for children is a priority for military families. Whether you are assigned living quarters or have a choice of where to live, it is important to explore all educational options to discover the proper match for each child. All parents want the best possible education for their children. Students have different learning styles and needs. Children within the same family may not learn in the same way or at the same rate. Finding the right educational setting for each child requires a careful examination of various options that are available to students and their families.

"Choosing a School for your Child", a publication of the U.S. Department of Education offers a series of checklists and pertinent questions to assist parents in making the right choices.

What schools are in my area (or in the area where I may move)?
Several high quality commercial tools are available to assist in making decisions about which school to choose for your child.

GreatSchools offers listings of 200,000 public and private schools serving students from preschool through high school and more than 800,000 parent ratings and reviews. GreatSchools also has a new program called College Bound, an online approach to helping parents raise college-ready high school graduates.

Designed for military students, their families and the caring professionals who support them, SchoolQuest is an educational resource tool from the Military Child Education Coalition. It is meant to facilitate the search for new schools and centralize resources.

It's also a secure storage site for students' educational, extra-curricular, award, volunteer and work information. Please note, though, that is NOT a replacement for a school transcript. It can be viewed as a safe, centralized virtual "file drawer" where a student (or parent) can keep track of all the details that are so difficult to organize, but so necessary when students move or apply for college, jobs or military service.

In addition, SchoolQuest guests are granted access to research and time-tested information about successful educational transitions.

Military OneSource is a free service provided by the Department of Defense to service members and their families to help with a broad range of concerns including money management, spouse employment and education, parenting and child care, relocation, deployment, reunion, and the particular concerns of families with special-needs members.

How can I help plan for a successful transition in this new school and for my child's school career?
Parents often want to know about the availability of extracurricular activities and sports, or the availability of advanced classes. For these questions, it is best to contact the schools directly. It is important to ask the right questions. The following resources can help with these questions and others.

Military Child Education Coalition
Education - Local Schools/Overseas

Overseas Schools -- What You Should Know

Moving your family from one installation to another in the U.S. can be challenging enough; but moving your family overseas presents an even more complex situation. One of the most important challenges can be summed up by this question, "Where are my children going to go to school?"

This article will provide resources to help guide military families through the many questions and decisions regarding local schools abroad.

Where do I start?

Start with the information on your new installation. Visit MilitaryINSTALLATIONS and review the installation's Education - article. All of the overseas installations have dedicated a portion of the Education article to discussing the education options available in the local community as well as the DoD schools located on the installation, if available. Most installations overseas that allow accompanied family travel have one or more DoD schools.

What is the difference between a DoD school and an international or national school?

DoDEA is the Department of Defense Education Activity. DoDEA operates DoD schools in 12 foreign countries, Guam and Puerto Rico. All DoDEA schools are fully accredited by U.S. accreditation agencies and maintain high academic standards with well rounded educational programs. Visit the DoDEA School Report Card website to find a detailed discussion of each DoD School.

DoDEA has launched an Online Student Pre-Registration System for School Year 2011-2012, with the aim of reducing the time parents will have to wait at the school registration site. The new program will also allow school officials to better predict school enrollment for the upcoming year, make more informed decisions regarding teacher and staff requirements, and prepare in advance for special services, supplies, and other classroom needs. Parents can pre-register their children by visiting the registration website.

In addition to DoDEA, the U.S. Department of State's Office of Overseas Schools mission is to promote quality educational opportunities for dependents of American citizens overseas at the elementary and secondary level. If a DoD school is not available on your installation there may be a school in the local community that is an American-Sponsored Elementary and Secondary School.

International schools are English-language schools whereas National schools are schools where courses are taught in the native language. The curriculum and grading system of an International school tends to be similar to the traditional American education system. This is a consideration if your family will be returning to the U.S. prior to your child or children graduating high school. Remember, when choosing a school it is best to try to match the school with your child’s needs and expectations.

Where can I find a list of International schools in the country where my family is moving?

The Internet can be an excellent resource for finding International Schools overseas. You can find a complete directory of overseas schools on the International Schools Services' website.

In addition, the World Wide Schools website is an excellent resource. From the homepage you can select the country. Once you have done this, a list of schools will appear and you can then choose which one you are interested in researching. All of the information appearing on this website is provided by the schools directly. Some of the information you may find on a school includes: a background summary about the school, the school's address, phone number, website, and even the email address of the director of the school. This information should be explored so that you can make comparisons with other International schools in the area to determine the best place for your child/children.

How do I decide what school is best for my child?

This process is much the same as it would be in the U.S. You may not have as many choices but it is important to make a list of possible schools and then begin to ask around. This is a daunting task since it is likely that there will be a language barrier. However, talk to the Relocation Personnel in the Family Center and your sponsor at your new
installation who may be able to put you in touch with other families with children around the same age as your child/children. Always contact the school directly and ask for references.

Once you have narrowed down your options, interview the school or schools directly. This is best done in person, if possible. Ask about: attendance, atmosphere, curriculum; grading system, tuition, accreditations, the staff and administration; as well as other practical details such as, does the school provide meals, what types of extra curricular programs are available, is there transportation, holidays and schedule, sports programs, before and after school care programs, and how is the facility maintained.

**Now that I have chosen a school, how do I successfully facilitate the transition for my child?**

A successful transition should be a priority during planning the move and once the move has been completed. The more knowledge you provide your child with, the more confident he/she will feel once he/she arrives at the new school. Allow your child to be a part of the decision making process, if he/she is old enough, and take his/her opinions into account.

MilitaryStudent provides several valuable tools to facilitate the transition process. Although many of these tools are not geared specifically to an international move the resources provided do apply to any military student transitioning to a new school in the U.S. or overseas.

This includes members of the Active Guard Reserve, as well as Reserve Component Soldiers who are activated under U.S. Code Title 10 or Title 32.

The Department of Defense (DoD) has directed a uniform TA fiscal policy across the military services. The established semester hour cap is $250 and each Soldier has an annual ceiling of $4,500. The Army will pay 100 percent of the tuition and authorized fees charged by a college up to the established semester hour cap and annual ceiling.

Authorized fees covered by TA are mandatory fees that are associated with an individual course enrollment. Non-reimbursable fees and fees that are not linked to individual course enrollments (e.g., application fees, graduation fees) are not covered by TA.

Further details on fees and the provisions of TA are found in AR 621-5 online.

Non-government Housing

Fort Campbell Housing Services Office (HSO)

All Service Members, regardless of grade or marital status, are advised to report to the HSO prior to entering in an agreement to rent, lease or purchase off-post housing.

The HSO Staff understands how stressful moving can be for our Service Members and their Families. We want to make this transition as seamless as possible. We welcome Family Members who require our services, especially when their Military Sponsors are deployed or on temporary duty away from the Fort Campbell Community.

The Fort Campbell Housing Services Office (HSO) provides information and assistance in renting, leasing and purchasing off-post housing. Visitor or call the HSO and allow our trained staff of professionals to assist you and your Family with your off-post housing needs. Presently, there are no mobile home parks on post and no government-owned or leased housing off post.

The Fort Campbell Housing Services Office provides the following Off-Post Services:

Off-Post Housing Referral Rental Assistance
Computerized rental listings
Maintain Sales Listings by Military Owners
Inspect Rentals for Adequacy
Mediate Tenant/Landlord Complaints
Transportation for Home Finding Assistance
Assignment and Termination Inspections Upon Request
Specialized Assistance to Service Members with Rental Challenges
Management of the Fort Campbell "Rental Partnership Program"
Management of the Automated Housing Referral Network (AHRN)
Permissive TDY (PTDY)
If you have approved PTDY signed by a LTC or above for house hunting, you must first report to the FCHSO on the day your PTDY begins. You will receive a housing stamp and date on your DA Form 31 which will sign you out on PTDY.

DO NOT SIGN INTO THE REPLACEMENT COMPANY! Your PTDY will end on the date specified on your DA Form 31, or the date you sign into Fort Campbell, whichever comes first. If the leave form is not properly stamped and dated by FCHSO, Finance will charge you regular annual leave instead of PTDY.

NOTE: IAW AR 600-8-10, para 5-31a.: "Commanders of units normally commanded by officers in the rank of lieutenant colonel or higher, are authorized to approve when period of absence is 10 days or less."

Residential Lease Agreement

A residential lease agreement can be an oral agreement and recognized as a binding lease, however, it is advised you use a written lease to clearly document contractual rights and obligations of both parties. You and the rental agent/landlord should initial any additions or deletions made to the lease. Read and be sure you understand the lease before signing. If you have any problems understanding the lease agreement you may request assistance from the Staff Judge Advocate (SJA) or HSO review it.

Most rental agencies require you to pay a fee to complete an application/credit check to obtain a residential lease agreement. Credit checks are conducted to obtain payment histories with your previous landlords. If you are denied an opportunity to lease a residential rental unit due to unfavorable credit, do not continue to apply as the cost will add up fairly quickly. We have established long term relations with many local area Property Managers, so please visit the HSO before you complete another application and pay another credit check fee. We are located in the main Housing Office, Building 850, 16 Street and Georgia Avenue. You may also contact us via telephone at 270-798-3808.

Security Deposits

A security deposit may be required by a landlord before you move in and, usually, is the equivalent of a month's rent or less or none at all. This deposit may be used to cover damages above normal wear & tear or under certain circumstances may be used to cover unpaid rent when you move out. If you keep your rental in good shape so that there are no charges for damages involved and no rent is due, you should ask for your security deposit back. Remember, security deposits are not advanced rental fees and are not to be used to pay your last months rent.

Discrimination

It is unlawful for a landlord to discriminate on the basis of race, color, national origin, sex, age, religion, handicap or familial status. If you feel you have been discriminated against, contact the HSO immediately.

Unaccompanied Personnel Housing Permanent Party (UPH)

It is mandatory for single Service Members E1 through E5 without dependents to reside on post in UPH. Each unit commander is responsible for assigning Service Members to their UPH units. Exceptions to this policy must come from the Garrison Commander. Before you enter into a lease agreement off post, you must have an approved Certificate of Non-Availability (CNA). You must confirm that you are authorized to receive BAH at the without dependent rate before securing a lease off post if you are E1 through E5.

Service Members who are geographically separated from their families are not authorized to live in the single Service Members' UPH. Single Service Members E6 and above are required to live off post. Grades E-6 and above without dependents are authorized to draw Basic Housing Allowance (BAH) without dependent rate. Soldiers in this category are not required to apply for a Certificate of Non-Availability.

There are no Senior Enlisted Quarters (SEQ) or Officer Quarters (OQ) housing units on post. The HSO maintains listings of available apartments/houses for rent or purchase off post. Contact the HSO at 270-798-3808, DSN 312-635-3808 for further information. Rentals in the Clarksville TN and Oak Grove and Hopkinsville KY are very affordable.

There are areas located within the Fort Campbell Military Housing Area (MHA) that have questionable activities and you should exercise caution. Please visit the HSO for specific and detailed information.

Automated Housing Referral Network (AHRN)

AHRN is a DoD-sponsored website that gives Military Families relocating to Fort Campbell and other installations access to available community-based housing listings. AHRN is the primary and most comprehensive automated listing of off post rental listings available in the Ft. Campbell MHA.

Visit AHRN.com or ask at your local housing office to learn about this DoD program that is currently available for most installations. The program allows military members and families to:

Search listings and pictures of available rentals near military installations
Find out about shared rentals
List their own properties for rent to other military families
List their homes for sale by owner (FSBO) to other military members
Contact installation housing offices AHRN is not currently available at all installations but the phased program is adding new installations every month.
Check the AHRN website to see if your next assignment is an AHRN base and check out other features to assist you in your home search.

Rental Partnership Program (RPP)

The program goal is to defray the initial cost of renting through reduced or waived security deposits; discounted rent and application fees. The RPP assists Military Members in obtaining quality affordable off-post rentals. It is mandatory that Military Members establish a military allotment to be enrolled in the program.

**Household Goods - Overview**

**Arranging Household Goods Shipments**

As soon as you are alerted to your upcoming Permanent Change of Station (PCS) move, you can start getting your house and family ready. Clean up and get rid of junk. Hold a yard sale or take serviceable items you no longer need to a thrift shop or donate to charity. Get important family records together in one place. You can even check your weight allowances and estimate the weight of your household goods before you start to set up your move.

If you are going overseas, you should begin to plan what items you will take in your unaccompanied baggage, in your household goods shipment, and what might need to go into permanent storage. Remember, in overseas areas, the electric current is different and houses are generally much smaller than U.S. standards and cannot handle large furniture.

**Household Goods Shipping Process**

Most likely, you will use the Defense Personal Property System (DPS) to manage your household goods shipment. If it has been a few years since your last PCS move, you will find that process has changed. The DoD has set up a DPS portal website, Move.mil, that explains this new process and provides access to DPS.

Your first step will be to visit the DPS portal website. This is a public site and can be accessed from any computer, not just government terminals. Select the section called DoD Service Members and Civilians and watch the short video that explains the new processes. You will then register to use DPS, and, once that is complete, log into DPS to get started.

It used to be that every member had to attend a counseling session with the Personal Property Shipping Office (PPSO) serving their location. While you can still choose to do this, DPS now allows you to do “self counseling” on-line at a time and place of your choosing. **As soon as you have a copy of your PCS orders** you can do your self-counseling in DPS. Again, the DoD Service Members and Civilians section has instructions and detailed information to assist you with this process. The self-counseling module will provide you with detailed explanations of your PCS allowances and help you decide if you want to have the government move you or whether to move yourself. Your
completed self-counseling will be reviewed by a PPSO counselor who will contact you with any questions.

Some special moving situations require that you attend a counseling session in person. If you are not eligible to use DPS for counseling, you will need to set up an appointment with your transportation office as soon as you have a copy of your PCS orders. Do not delay this appointment! The earlier you call or visit your transportation office, the greater your chances of moving on the date you desire.

Regardless of how you are counseled, once everything is clear, and if you choose a government move, the counselor will route your shipment to the Transportation Service Provider (TSP) with the best quality and price available. You will be notified when this is complete and you should hear from the selected TSP within 3 business days of this decision.

*It's Your Move—Take Charge*

If you do not hear from your TSP within 3 business days of your initial notification, contact them to ensure that they have the best possible email and phone numbers for you. Remember that you will now be dealing directly with the TSP who has end-to-end responsibility for your personal property move, not just their local agents. Make sure you keep your contact information current in DPS throughout the move. It is important for communication between you and the TSP that they have the best phone numbers and email addresses.

After counseling, the TSP’s pre-move survey of your personal property is critical in arranging your household goods shipment. Generally, this should be completed 10 or more days before your requested pick-up date. Depending on the estimated size and destination of your move, this survey will probably be performed in person by the TSP’s local agent. It is important that you cooperate with the surveyor to set up this appointment. You or your authorized agent must be present during the entire survey. During the survey clearly identify all items that will be included in your shipment and answer all the surveyor’s questions accurately. Do not go out and buy additional large items to add to your shipment after the survey is complete, this will change the weight of our shipment and probably cost you money for weight over your allowance.

The surveyor will also confirm dates and addresses with you at this time and will go over any special requirements. This will allow the TSP to set up the right size crews and vehicles for your move and minimize confusion and delays during your move. The surveyor should ensure that you know how to get in touch with the TSP.

**Shipping Your Automobile**

The government may ship one Privately Owned Vehicle (POV) for you at their expense to your new overseas location. This is handled through your transportation office. Remember to review your POV needs at your counseling session. Move.mil has a whole section devoted to POV shipping information. The shipping contractor has established a website where you can track the location of your POV throughout the shipping process.

**Shipping Pets**

Planning for shipment of your pet includes researching airline requirements and quarantine restriction laws in your new location. You will need to ask the airlines the requirements for size, weight, number of animals, kennel construction, documentation and season of the year limitations. Occasionally, small pets can be shipped on military flights but availability and regulations are always changing, as well as fees. Search Move.mil for general information on shipping pets.

Many international locations have strict importation laws including extended quarantines and restrictions on breeds or types of animals that can be brought into the country. Carefully research these rules as they could impact your moving schedule. Not only do overseas locations have strict rules but many locations have restrictions on dangerous dogs as well. Review your destination installation’s Shipping Pets article for details found on the left hand tool bar on MilitaryINSTALLATIONS.

**Arrival and Delivery of Household Goods Shipments**

It is your responsibility to contact the TSP as soon as you arrive at your new duty station. Let them know how you can be contacted, phone, mobile phone and email. If you already have new quarters, they will help arrange delivery of your personal property shipments. Otherwise they will arrange for temporary storage until you have permanent housing.

Make certain that you, or someone who can act in your name, is available at your new home on delivery day. If the TSP arrives and cannot deliver the shipment, you may be charged for the attempted delivery and any additional storage that may result.

**Claims Process**

What if something of yours is damaged, lost, or destroyed during the move? DoD customers are eligible for Full Replacement Value (FRV) protection on DoD-sponsored household goods and unaccompanied baggage shipments.
With this protection, the TSP will either repair or pay to repair damaged items and pay the full replacement cost for items that are lost or destroyed.

Providing prompt notice of loss or damage is an essential part of the process. The TSP’s delivery crew will provide you with a form to note any loss or damage you discover at the time of delivery. You will complete and sign this at the time of your delivery and a copy will be sent back to the TSP’s claims office.

If loss or damage is discovered after the delivery crew departs, you must **notify the TSP within 75 days of delivery in order to retain your right to Full Replacement Value protection.** While you may use a form provided for this purpose by your TSP, the best way is to go to Move.mil and follow the instructions to file a claim. From there you can complete the loss and damage report in DPS which will be available to the TSP immediately. All you need for a loss and damage report is the inventory number, the item's description from the inventory, and a brief description of the damage or loss. The TSP has the right to inspect the damaged item once they receive the notice of loss or damage. Do not throw out destroyed or unrepairable items before you have spoken with the TSP’s claims agent.

**A loss and damage report is not a claim.** If you have any loss or damage to your personal property you will need to file your claim directly with the TSP within nine months of delivery to receive FRV coverage. Once the claim is filed directly with the TSP, the TSP is responsible for obtaining repair and replacement estimates and settling the claim by paying for repair or replacement costs. For most military shipments, you will file your claim through DPS. Again, Move.mil has instructions on using DPS to file your claim.

As in the past, the Military Claims Office (MCO) is available to help you understand the claims process and your rights and responsibilities. You may still transfer your claim to the MCO of your wish. However, if you transfer your claim the MCO will only be responsible for the lower depreciated cost of items on the claim.

**Customer Satisfaction Survey**

Once your personal property is delivered, you will be asked to rate your satisfaction with the customer service you received from the TSP. Make sure you take the time to do this. Your feedback will make the process better for everyone. The Move.mil website allows you to access the Customer Satisfaction Survey (CSS). The SDDC website also provides detailed information about completing the Customer Satisfaction Survey.

Your CSS is extremely important. If a TSP has done a good job, your survey will help ensure that they get more military moves and may even be available to you for your next move. Likewise, if your TSP failed to meet expectations, your survey will help ensure that they get fewer military moves. Completing the CSS not only lets your TSP know how they did on your move, it will help make the system better for all future military and DoD civilian personnel and their families when they move.

**Special Needs**

As many as 15 percent of military families have members with special needs. These include spouses, children, or dependent parents who require special medical or educational services. These family members have a diagnosed physical, intellectual or emotional condition. The Exceptional Family Member Program (EFMP) serves these families in several ways.
These four articles will provide families with special needs helpful information and points of contact:

**Enrollment/EFMP** – This article discusses the Exceptional Family Member Program enrollment, which is mandatory for all military personnel who have a member of their family with a medical or educational disability. The article discusses the purpose of enrollment, the process and provides Service-specific differences.

**Family Support/EFMP** – This article discusses the family support function of the EFMP, which may include information and referral support (to military and community resources), financial management assistance, relocation assistance, and for some families, case management. The article provides Service-specific differences and identifies the point of contact at each installation.

**Health Care/Special Needs** - The military health care system supports families with special needs in a number of ways. This article describes the special services and provides the point of contact at the Military Treatment Facility.

**Special Needs - EFMP Enrollment**

*Exceptional Family Member Program - Enrollment*

The Exceptional Family Member Program (EFMP) includes a variety of personnel, medical, and family support functions. Enrollment is a major component of the program and is mandatory for all military personnel who have a member of their family with a medical or educational disability.

By submitting a completed DD 2792, EFM Medical Summary and/or the DD 2792-1, EFMP Educational Summary, the military member identifies that a family member has a special need. Information about the family member’s condition including diagnosis, type of provider(s), frequency of care, medication, and special accommodations is documented on the forms. The information is used during the time that a service member is being considered for a new assignment to insure that the service member’s family member can obtain necessary care at the new location.

Although each of the Military Services handles the enrollment somewhat differently, there are some commonalities:

1. Each Service uses the Department of Defense forms (DD 2792 and DD 2792-1).
2. Each Service submits the completed forms to the receiving location for review.
3. The receiving location indicates whether care is available.
4. The DD 2792 medical form is reviewed by medical personnel,
5. The DD 2792-1 is reviewed by educational personnel,
6. All of the information is confidential and private, and on a need to know basis.

Military personnel, depending upon the Service, can pick up the necessary forms as follows:

- Army – At the military treatment facility – ask for the EFMP office.
- Marine Corps – At Marine Corps Community Service. Ask for the EFMP manager.
- Navy – At the military treatment facility. Ask for the EFMP Coordinators’ Office.
- Air Force – At the military treatment facility. Ask for the Special Needs Information and Assignment Coordination (SNIAC) officer.

These individuals can also explain the process for getting the forms completed, and for returning them.

**Special Needs - EFMP Family Support**

*Exceptional Family Member Program - Family Support*

The Exceptional Family Member Program (EFMP) includes a variety of personnel, medical, and family support functions. The EFMP family support services may include, but are not limited to:

- Information and referral for military and community services
- Relocation assistance
- Financial management
- Local school and early intervention services information
- Case management

To reach a family support program in the:

- Army – Army Community Service - EFMP Manager
Military families with special needs who are not located near a military installation are encouraged to call Military OneSource (1-800-342-9647) and ask to speak with a special needs consultant. The Military OneSource program is designed to supplement programs and services available on the installation, and can be especially helpful to Guard and Reserve families who don’t live near an installation, or to members who are geographically isolated.

Special Needs - Health Care

Exceptional Family Member Program

The Exceptional Family Member Program (EFMP) is mandatory for all family members who have been identified with a special medical or educational need. Enrolling in the EFMP ensures that the family member’s medical needs will be considered during the assignment coordination process.

Military Treatment Facility

The clinics and services available at Military Treatment Facilities vary by location. Before you move, identify the MTF that will serve you, visit the MTF’s website to learn about the clinics and services available and to get relevant contact information.

Moving to a New TRICARE Region

If you anticipate a move to another TRICARE region, work with your local TRICARE Service Center (TSC) or case manager before your move to ensure the transition is as smooth as possible. On arrival at the new duty location, your sponsor should contact the Beneficiary Counseling and Assistance Coordinator (BCAC) or TSC to ensure the transition plans are in place and to obtain authorizations for TRICARE Extended Care Health Option (ECHO) services, if applicable.

Beneficiary Counseling and Assistance Coordinator (BCAC)

All TRICARE Regional Offices and most MTFs are staffed with BCACs (formerly known as Health Benefits Advisors.) BCACs provide information, guidance and assistance on benefit options, TRICARE Prime enrollment, special authorizations, status of claims and eligibility, plus assistance with referrals and appointments. If you or your family member has a more severe medical need, contact your assigned case manager.

Case Management

Case management involves a team of health care professionals who help you and your family to find solutions to complex health problems. It is important to inform your case manager if you are moving as he/she will connect you with the case manager at your new location.

Extended Care Health Option (ECHO)

TRICARE ECHO provides financial assistance to beneficiaries of active duty service members who qualify based on specific mental or physical disabilities. ECHO offers an integrated set of services and supplies beyond the basic TRICARE program. ECHO is administered by regional contractors in the TRICARE North, South, and West Regions and by TRICARE Regional Offices in overseas locations.

Transporting Medical Equipment

Your Installation Transportation Office has special procedures to follow for the transportation of medical equipment that is necessary for medical treatment required by the sponsor or family member. Some types of medical equipment may be shipped in the same manner as Professional Books, Papers, and Equipment (PBP&E).

Federal and State Health Care Programs

Medicaid - Medicaid pays for medical assistance for certain individuals and families with low incomes and resources. State Medicaid programs are usually administered by departments of social service or departments of medical assistance.

Supplemental Security Income (SSI) - SSI is a cash assistance program intended to meet basic needs for food, clothing and shelter for those who are aged, blind or disabled. It provides cash to meet basic needs for food, clothing, and shelter. Families must reapply upon each move to another state.

Title V of the Social Security Act - Many states have services for children with special health care needs that are funded by the Maternal and Child Health Services Block Grant, or Title V. State departments of health web sites and local
health departments will provide information on state health benefits for children with special health care needs. The Maternal and Child Health Bureaus’ web site has Title V information organized by State that provide you with Title V points of contact and other pertinent information.

Other Important Resources

**Debt Collection Assistance Officer (DCAO)** - TRICARE has a DCAO assigned to TRICARE Regional Offices and MTFs worldwide to help beneficiaries understand and get assistance with debt collection problems related to TRICARE. Individuals who have received a notice from a collection agency or a negative credit report because of a medical or dental bill should be referred to the nearest DCAO.

**Family Voices** - Family Voices is a national, grassroots clearinghouse for information and education concerning the health care of children with special health needs. Family Voices also has State points of contacts with useful links to State programs and organizations.

Installation Specific Information

This program helps to identify and evaluate active duty family members who might have special health care, education or other support needs. The evaluation assists in obtaining special support services and determines the impact of such needs on the sponsor’s assignments. All active-duty soldiers with OCONUS assignments must schedule a medical records screening for each family member. This screening must be completed before family travel application can be processed. Appointments are scheduled when soldiers attend their levy briefing or by calling 270-798-8830. EFMP offices will also assist you in finding the services needed within community hospitals and schools.

EFMP is a mandatory enrollment program that is based on public law and Department of Defense mandates. Our office works with other military and civilian agencies to provide comprehensive and coordinated medical, education, housing, and community support and personnel services to Families with special needs.

EFMP enrollment does not guarantee assignment deletions, deferments or compassionate reassignments. All Soldiers are still eligible for worldwide assignments and enrollment will not guarantee that a Soldier will not serve an unaccompanied tour.

Both ACS EFMP and medical EFMP work with other military and civilian agencies to provide comprehensive and coordinated medical, education, housing, and community support and personnel services to Families with special needs.

Exceptional Family Member Program at MEDDAC is a program established to help identify and evaluate active duty family members who have special health care, education or other support needs. An exceptional Family Member is a Family Member (child or adult) with any physical, emotional, developmental, or intellectual disability that requires special treatment, therapy, education, training, or counseling.

EFMP assists in obtaining information that will be used by assignment personnel to determine the impact of such needs on the sponsor’s assignments. All active-duty soldiers with OCONUS assignments must schedule a medical records screening for each family member. This screening must be completed before family travel application can be processed. Appointments are scheduled when soldiers attend their levy briefing or by calling 270-798-8830. EFMP on the medical side will assist your family with enrollment. EFMP enrollment does not guarantee assignment deletions, deferments or compassionate reassignments. All Soldiers are still eligible for worldwide assignments and enrollment will not guarantee that a Soldier will not serve an unaccompanied tour.

EFMP at ACS will assist you in finding the services needed within our installation and community including information and referral, relocation assistance, Special Needs Accommodation Process Team, respite care, support groups, monthly family events, Camp We Can, special events, advocacy, unit/FRG briefings and IEP information.
System Navigation Services: A community support component of EFMP designed to connect Families with special needs, to the systems of care they need, on and off the installation.

Active duty Army, Reserve and Guard Families are eligible for Systems Navigator assistance. All services are provided at no cost to Families. System Navigators are Army Community Service EFMP staff members employed at Fort Campbell and other installations. They are trained and knowledgeable about the systems of care used by Families with special needs. The Primary role of a System Navigator is to guide Families through the available systems of care.

For more information and assistance contact the ACS Exceptional Family Member Program 270-798-2727 or online.

**Education - Special Education/EIS**

**Special Education and EDIS**

The Department of Defense provides services to children with developmental delays and disabilities according to the Individual with Disabilities Education Act (IDEA). Eligibility for services is determined according to procedures outlined in DoD Instruction 1342.12, Provision of Early Intervention and Special Education Services to Eligible DoD Dependents, April 11, 2005.

**Infants and Toddlers (Birth to 3 years of age)**

The Ft. Campbell Educational and Developmental Intervention Services (EDIS), a division of the Army military hospital, provides services to young children who meet the identified criterion for those services. The children's families must meet the housing requirements for their children to attend a Defense Dependents Elementary and Secondary School (DDESS). Further information is available from the Ft. Campbell EDIS.

The EDIS teams, with Early Childhood Special Educators and multi-disciplinary allied health professionals, assist families of infants and toddlers with developmental delays to achieve goals that enhance functional independence and support school readiness. EDIS provides services in the child's natural environment (home, childcare center, etc.), and embedded in family routines.

**School Age Services (ages 3 through 21 years)**

Ft. Campbell Schools provide special education services to all eligible students whose families meet the housing requirements for their children to attend a Department of Defense stateside school.

The special education population at Ft. Campbell includes all types of educational disabilities. Special education services are provided within a variety of settings to include self-contained life-skills classrooms, resource special education, speech therapy classrooms, and within the general education classrooms. Programs for individual students are determined by the nature and severity of their identified needs, including services such as Speech-Language, Occupational, and Physical Therapy when the school multi-disciplinary team (Case Study Committee) that includes the parent(s) identifies such needs. Services for students with hearing and vision needs are available from Ft. Campbell staff members.

**Four Year Old Preschool Program**

All four year old children are eligible to attend a universal preschool program that operates in each of the elementary schools. This program is for all children who turn four years of age on or before the designated date of the respective school year. It is open to all eligible children whose families meet the housing eligibility requirements for their children to attend a Department of Defense stateside school. This is a half day preschool program provided at no cost to the parents.

**Special Education Records**

Parents of children enrolled in special education should hand-carry copies of all pertinent school and medical documents to include their children's Individualized Education Program (IEP) and current testing and evaluation reports to provide to the new school.

It is helpful if parents call the Ft. Campbell School Community office in advance of their arrival so we can plan for a smooth transition to our schools.

Moving With TRICARE

Whether moving stateside or overseas, active duty families can now switch their TRICARE Prime enrollment by phone! Before you start your move, contact your losing TRICARE health care contractor to see if you need to switch to a new region. TRICARE does the rest! You must update DEERS (Defense Enrollment Eligibility Reporting System) with your new address so you do not have any disruptions in service and your enrollment moves with you. Get contact information, and more TRICARE moving tips on the TRICARE website.

Your TRICARE coverage is completely portable—meaning it moves with you. You are covered worldwide—both in-transit to your new duty location and once you arrive—but depending on where you go, you may use a different TRICARE health plan option. Additionally, you may have different enrollment steps depending on which health plan option is available in your new area.

When Enrolled in a TRICARE Prime Option

The TRICARE Prime options include TRICARE Prime and TRICARE Prime Remote for stateside and TRICARE Prime Overseas and TRICARE Prime Remote Overseas for overseas. Follow these simple steps to set-up Prime coverage in your new location without a break in coverage.

1. Do not disenroll from your TRICARE Prime option before you move.
2. Call your losing contractor and provide information about your upcoming move; new duty station, expected date of arrival, cell phone number, valid email address, and eligible family members moving to the new location.
3. Your losing contractor passes the information along to your new contractor.
4. Within five days of your anticipated arrival, your new contractor will try to call/contact you to confirm your arrival and enrollment choices.
5. Once you agree to the transfer, the process is complete. It could take up to four days, but you never lose TRICARE Prime/Prime Remote coverage.

There are other ways to set-up Prime in your new area:

Before moving, visit your local TRICARE Service Center to complete an enrollment change form.

Go online and set-up your new enrollment via the Beneficiary Web Enrollment Website
Download and complete a TRICARE Prime Enrollment Application and PCM Change Form. Mail it to the new contractor or drop it at a local TRICARE Service Center.
Enroll when you in-process at your new duty station.
Enrollment and assignment of a new primary care manager (PCM) should occur within 30 days when moving within the same region, moving to a new region or overseas.

Update your personal information in the Defense Enrollment Eligibility Reporting System (DEERS) immediately, as your new location reflected in DEERS is the key to transferring enrollment.

Where you are moving determines which Prime option is available.

Prime Options in the United States

TRICARE Prime

TRICARE Prime is offered in Prime service areas—geographic areas typically located around a military treatment facility—throughout the country.

TRICARE Prime Remote

In non-Prime service areas, which are generally 30 minute drive-time or 30 miles from the nearest MTF, TRICARE offers TRICARE Prime Remote. Enrollment is normally with a network provider when available; otherwise, enrollment is with a TRICARE authorized provider who manages all of your care. Any TRICARE-eligible family members living with you in a TRICARE Prime Remote area can enroll in TRICARE Prime Remote for active duty family members. Be sure to include them on the enrollment form.

When Using TRICARE Standard and Extra

TRICARE Standard and Extra are available to family members only. Active duty service members are required to enroll in one of the Prime options described above.

TRICARE Standard and Extra are available throughout the United States and enrollment is not required. Any eligible active duty family member who is registered in DEERS may use these programs by seeing any non-network or network (Extra) TRICARE authorized provider. In areas outside of the United States, active duty family members who do not want to use a Prime option may use TRICARE Standard Overseas by seeing qualified host nation providers.

If you are already using TRICARE Standard and Extra, moving is easy.

Once you arrive at your new location, update your personal information in the Defense Enrollment Eligibility System.
Reporting System (DEERS) immediately.
Find TRICARE-authorized providers in your new area.
Here are a few things to remember about using TRICARE Standard and Extra in a new region

In the U.S.: Visit your new regional contractor's website for a list of network providers. Remember, if you see network providers, you will be using the Extra option and pay lower cost shares.
Outside of the U.S.: Contact International SOS or the MTF Service eCenter for help locating a qualified host nation provider. The TRICARE Extra option is not available in overseas areas.
If you move to a new region, you will have a new claims address for submitting your TRICARE claims.
Learn your new region's prior authorization requirements because these requirements can differ by region.

When Using TRICARE For Life

TRICARE For Life—TRICARE's supplemental coverage for those who are eligible for Medicare and have purchased Medicare Part B—requires no enrollment and you will have a smooth transition when you move.

TRICARE for Life contact information: WPS TRICARE For Life, P.O. Box 7889, Madison, WI 53707-7889; 1-866-773-0404; TDD 1-866-773-0405

Once you arrive at your new location, update your personal information in the Defense Enrollment Eligibility Reporting System (DEERS) immediately.
Find Medicare providers in your new area.
Visit Medicare's website.
If you move overseas, your TRICARE For Life coverage may change depending on where you move. In U.S. Territories such as Guam, Puerto Rico and the U.S. Virgin Islands, TRICARE For Life coverage works the same as the stateside program. But, in all other overseas locations, TRICARE For Life Overseas works differently because Medicare does not provider coverage in most overseas locations. Therefore, TRICARE is the primary payer. You can get care from any host nation provider and you will be responsible for TRICARE deductibles and cost shares.

Contact International SOS, or the TRICARE Area Office for the overseas area where you are moving, or the nearest American Embassy Health Unit for assistance finding a host nation provider.

Getting Care Along the Way

Routine Medical and Dental Care—Get it before you go.

Before you move, make sure you have received any routine medical or dental care you think you might need during the time you will be traveling. Or, delay the care until you get to your new duty location. Check supply of all prescription medications and get refills/new prescriptions until you can make an appointment with your new Primary Care Manager (PCM) at your new duty site.

Emergency Care in the United States—Call 911 or go to the nearest emergency room.

TRICARE defines emergency care as medical services provided for a sudden or unexpected medical or psychiatric condition, or the sudden worsening of a chronic (ongoing) condition that is threatening to life, limb, or sight and needs immediate medical treatment, or which has painful symptoms that need immediate relief to stop suffering. If you are near a military treatment facility (MTF), you should go to the MTF or military dental treatment facility for emergency services. If you are seen in a civilian facility, contact your PCM or regional contractor within 24 hours.

Urgent care in the United States—Coordinate with your PCM and/or regional contractor

TRICARE defines urgent care as medical care for a condition that will not result in disability or death if not treated immediately but should be treated within 24 hours to avoid further complications. If you are in a Prime program, you must coordinate urgent care with your primary care manager and/or regional contractor before receiving the care. If you are in TRICARE Standard and Extra or TRICARE For Life, you can receive care as you normally would. You should, however, contact your contractor as soon as possible to coordinate any prior authorizations that are needed.

Emergency or Urgent care Overseas follow these steps

AD and ADFM enrolled in TRICARE Prime and traveling outside the United States: Contact the TRICARE Area Office, or go to their website for assistance finding Emergency or Urgent care.
AD and ADFM stationed overseas:
For Urgent care coordination, contact your MTF PCM, or
Contact the closest TRICARE Area Office, or
Contact the TRICARE Overseas Regional Call Center, or
Go to their website (internationalsos.com)
You do not need prior authorization for emergency or urgent care but the TRICARE Area Office or TRICARE Global Remote Call Center will help you find the best care available in the overseas area in which you are traveling.

Filling Prescriptions on the Road
You should have all your prescriptions filled before you leave, but if you need a prescription filled while you are traveling in the United States, you have several options:

If near an MTF, fill the prescription at the MTF pharmacy.

Find the closest TRICARE network pharmacy.

If a network pharmacy is not available, you can visit a non-network pharmacy. In this case, you may have to pay up front for your medications and file a claim with Express Scripts, Inc., for reimbursement. For more details, visit the TRICARE website.

The TRICARE home-delivery is not recommended for a prescription you need right away, but if you'll be away for a long time, you can arrange for any regular prescriptions to be filled via the mail-order pharmacy.

Your pharmacy coverage is limited overseas:

TRICARE network pharmacies are only located in the United States, Puerto Rico, Guam and the U.S. Virgin Islands. You can have prescriptions filled at host-nation pharmacies, if necessary. Host-nation pharmacies are treated the same as non-network pharmacies. If you have prescriptions filled at a host-nation pharmacy, you should expect to pay for the total amount up front and file a claim with Wisconsin Physicians Service for partial reimbursement. To learn more about pharmacy claims, visit the TRICARE website.

To use the mail-order pharmacy overseas, the prescription must be from a U.S. licensed provider and you must have an APO or FPO address.

If You Have Questions

Your regional contractors and TRICARE Area Offices are available to answer your questions. These offices are listed above. Find even more information about moving, updating DEERS, the TRICARE regions and much more at the TRICARE website.

Child and Youth Programs

General Information
The Department of Defense (DoD) and the Military Services take great pride in the variety and quality of services provided to children and youth on installations worldwide. While the services provided depend on the size of the location, the standards and quality of services are consistent and meet established regulations. The network has hundreds of locations worldwide serving over 1.3 million children.

Child Development Centers (CDC)
These facilities generally offer child care for children ages six weeks to 5 years old. Care is typically available weekdays from 6:00 a.m. to 6:00 p.m. CDCs vary in size; the average CDC cares for about 200 children. All programs must be certified by the DoD and accredited by a national accrediting body such as the National Association for the Education of Young Children.

In-Home Childcare
With in-home childcare, children receive their care in the private home of a certified provider living in government-owned or leased housing or in state-licensed homes in the community. Family child care provides accommodating child care arrangements, including night, weekend, and flexible hourly care for shift work.

In-home childcare programs offer comparable care to a CDC. Providers must be certified by the DoD, and some seek additional accreditation from the National Association of Family Child Care (NAFCC). Regulations limit the number of children that may be cared for at one time: no more than six children under age eight, and no more than two children under two years old.

School-age care (SAC)
DoD School-Age Care (SAC) programs are offered for children, kindergarten through 6th grade before and/or after school, during holidays, and summer vacations. Emphasis is placed on SAC programs which meet community needs, reinforce family values, and promote the cognitive, social, emotional, and physical development of children. SAC may be provided in DoD Youth Centers, Child Development Centers or other suitable facilities. To expand school-age care spaces, DoD policy encourages use of youth centers; on-and off-base schools, and other suitable facilities such as community centers. Accreditation of DoD SAC programs is a requirement. Accreditation sets the professional standards for after school programs and helps families identify high-quality programs.

Waiting List
Due to a high demand for care, you may be placed on a wait list. Your position on the wait list depends on many factors that are at the discretion of the installation and may include your spouse's military status, the date you apply, deployment and your employment. If these factors change while you are on the wait list, your position will be changed accordingly, so it is important that you keep your information up-to-date.

Child care is not an entitlement, and fees are income-based. Fees throughout the child development system of care fall into fee ranges set by DoD.

To apply for child care, fill out DD Form 2652, Application for Department of Defense Child Care Fees and DD Form 2606, the Department of Defense Child Development Program Request for Care Record and return them to the Child and Youth Services Coordinator at your installation.

Youth Programs
The Department of Defense has a long history of providing positive youth programs that focus on alternative activities for youth during out-of-school hours. Today, DoD continues to be committed to youth by providing consistent guidance and stable and dynamic programs in more than 350 youth programs worldwide. DoD promotes positive youth development by designing programs to recognize the achievements of youth and by developing partnerships with other youth-serving organizations like the Boys & Girls Clubs of America and 4-H that offer a variety of resources. Programs for teens and pre-teens vary from one base to another, but are governed by a consistent DoD instruction. Programs prepare young people to meet the challenges of adolescence and adulthood through a coordinated, progressive series
of activities and experiences that help them become socially, emotionally, physically and cognitively competent. Programs usually include physical fitness and sports, arts and recreation, training in leadership, life skills and career/volunteer opportunities, mentoring, intervention and support services.
