

MACHINERY MAINTENANCE MECHANIC

Pay: \$25/hour!

Location: Lanham, MD

We are looking for an innovative, confident and results-driven **Machinery Maintenance Mechanic**.

The Machinery Maintenance Mechanic will be responsible for the maintenance and repair of manufacturing equipment.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily

- Perform 3 axis CNC machine setup, troubleshooting, repair and preventative maintenance services.
- Perform emergency/unscheduled repair of production equipment during machine services.
- Prepare and set up CNC machinery for scheduled production runs.
- Perform various mechanical services including, but not limited to mechanical, pneumatic and hydraulic troubleshooting and repair of packaging and production machines.
- Read and interpret equipment manuals and work orders to perform required maintenance and service.
- Read and interpret electronic prints, die drawings and other supporting documentation to determine the requirements of the maintenance job to be performed.
- Operate window fabrication equipment when directed by management personnel
- Set up all machines, blocking, guides, jigs, drills, and dies on equipment to produce error free product within documented tolerances.
- Operate saws, punch and drill presses, mills, and other equipment necessary to produce window parts.

- **Education & Experience:**
- High School Diploma or GED
- 5-8 years experience with 3 axis CNC Machinery or any equivalent combination of education and experience.

- **Skills:**
- Proficiency with maintenance of complex manufacturing machinery including 3 axis machines with multiple heads, solenoid valves, digital output, feed rate adjustments, etc.
- Knowledge of maintenance and electrical techniques.
- Ability to use measuring tapes and other hand tools.
- Ability to implement machinery preventive and corrective processes.
- Use computer applications for word processing, modify excel spreadsheets, inventory control and reporting.
