Search for Req #: 169060BR - Industrial Engine Field Mechanic - Wilkes Barre PA

This position is open until filled.

#### JOB DESCRIPTION:

The focus of this position will be to provide support for the oil and gas industry, to service natural gas and diesel products for our customers. Must possess appropriate training and relevant work experience on natural gas, diesel and industrial engine systems to successfully diagnose, repair, and complete technical startup of diesel and natural gas engines. After hours assignments are often required to satisfy customer demands and repair time schedules.

The essential functions of this position include the following:

- Independently diagnose and repair compression gas and diesel engines along with independently and successfully diagnose, repair, rebuild, and maintain diesel, gas, and marine engines
- Perform work on generators and component parts in various environmental and working conditions
- Safely assemble and disassemble equipment and component parts according to the manufacturer's specifications
- Repair and maintain temperature control and air compression equipment
- Accurately complete service reports and provide the details to complete work orders
- Meet the Department of Transportation physical examination and licensing requirements as mandated by law
- Work overtime as required
- Maintain tool requirements

The candidate will report to the Wilkes Barre Industrial Engine Shop. When field gas, diesel, or industrial engine work is available, the mechanic will be dispatched to perform that work. When there is no field work, the successful candidate will work in the shop facility for the balance or duration of the shift.

The candidate will be placed on the Industrial Engine on-call rotation.

#### SUPERVISORY RESPONSIBILITIES:

This position will not supervise other associates.

**EDUCATION and/or EXPERIENCE:**

The successful candidate will be required to pass a driver's physical and all applicable tests associated with driving a service truck and must be able to obtain a commercial driver's license within 60 days of appointment to this position.

Must comply with any special customer requirements.

As a Field Technician you are required to work in an industrial environment which includes exposure to significant environmental conditions. Physical requirements include: overall stamina; sitting; standing; climbing; walking; lifting; pulling and/or pushing; carrying; grasping; reaching; stooping and crouching; listening; and speaking. Must have good motor coordination skills; coordination of eyes, hands, and feet; verbal intelligence; and numerical intelligence. The workplace environmental conditions include subject to noise; heat; cold; injury exposures; and atmospheric exposures. Must be able to lift 50 pounds.

Graduate of a technical school, military school, or relevant working experience acceptable to the company.
