

Maintenance and Metals Supervisor – Job ID: 11721

Allen Park, MI

Removal Date: December 1, 2016

At Roush, we fuse technology and engineering to provide product development solutions to customers in a diverse range of industries. Widely recognized for providing engineering, testing, prototype, and manufacturing services to the transportation industry, Roush also provides significant support to the aerospace, defense and theme park industries. With over 4,000 employees in facilities throughout the United States, Europe, Asia, and South America, our unique combination of creativity and tenacity activates big ideas on a global stage. We want motivated, ambitious people who put the needs of our customers first, bring creativity to their work and will do whatever it takes to achieve success. If you share our passion for providing innovative solutions to complex challenges, we want you on our team.

Roush is searching for an on-the-floor Supervisor who will lead two small teams of skilled trade employees. The ideal candidate will be experienced with leadership, have exposure to sheet metal and/or maintenance and possess good computer skills. This Supervisor opportunity is located in Allen Park, MI and works off-site with the customer.

Responsibilities:

- Supervise, train and monitor a small team.
- Provide a quality service to our customers within cost requirements and completed on time.
- Interpret blue prints and direct best practices.
- Work closely with other internal departments to utilize all resources available.
- Maintain shop equipment and employee training records.

Qualifications:

- High school diploma or equivalent.
- 5 years in skilled trades.
- 3 years of experience in a leadership role within skilled trades.
- 3 years of experience working with blueprints / schematics.
- Excellent computer skills.
- Excellent customer relationship management skills.
- Strong verbal and written communication skills, along with the ability to present data clearly in both formal and informal settings.

Preferred Skills:

- Four year technical degree.
- Working experience with sheet metal.
