

## **Booz Allen Job Announcement San Antonio, Texas**

### **Mission Assurance Security Engineering Analyst-Senior:**

Provide non-personal professional services to assist with planning, coordinating, conducting, and leading the activities of a team conducting protection program higher headquarters assessments at Army installations. Assist with coordinating schedules, criteria, resourcing, and data gathering and plan, execute, document, and report the findings of installation assessments as part of a team. Use various automated tools, databases, and other software programs to support assessment activities and train others on their use, as required. Prepare observations and recommendations to installation leadership and staff, assist the team lead with preparing and delivering briefing materials, and collaborate with active duty and civil service government staff, counterparts across Army organizations, and other government agencies. Perform in multiple program areas, as needed, including terrorist options, physical security, structural and infrastructure engineering, emergency management, and information operations with an emphasis on emergency management. Provide career management for direct report staff, as needed. This position requires the ability to work extended outdoors hours in sometimes austere conditions with required travel of up to 25%.

#### **Basic Qualifications:**

- 5+ years of experience with assessment
- Knowledge of DoD risk management concepts in a mission assurance environment
- Ability to work without direct supervision and display leadership and initiative
- Secret clearance
- BA or BS degree
- Completion of ATO Level II training
- Completion of DoD security engineering training

#### **Additional Qualifications:**

- 10 years of experience with assessment
- Experience with leading security engineering risk management efforts for a DoD organization
- Possession of excellent oral and written communication skills
- Top Secret clearance
- MA or MS degree
- Completion of FEMA EMI modules IS300, 400, 546, 547, L146, and 147
- Completion of the DTRA MTT, DoD electronic security systems training, or IT security training or Certification, or other additional training

#### **Clearance:**

Applicants selected will be subject to a security investigation and may need to meet eligibility requirements for access to classified information; Secret clearance is required.
