

Quality Control Inspector - Job ID - 11547

Livonia, MI

Remove Posting: September 18, 2016

At Roush, we fuse technology and engineering to provide product development solutions to customers in a diverse range of industries. Widely recognized for providing engineering, testing, prototype, and manufacturing services to the transportation industry, Roush also provides significant support to the aerospace, defense and theme park industries. With over 4,000 employees in facilities throughout the United States, Europe, Asia, and South America, our unique combination of creativity and tenacity activates big ideas on a global stage. We want motivated, ambitious people who put the needs of our customers first, bring creativity to their work and will do whatever it takes to achieve success. If you share our passion for providing innovative solutions to complex challenges, we want you on our team.

Are you detail and quality-oriented and looking for a new challenge? Roush may have just the opportunity for you! We are searching for a Quality Control Inspector who will be inspecting top-shelf prototype and custom machining with tight tolerances. This person will be handling advanced blueprint reading, checking complicated close tolerance parts, and running and programming a CMM machine. This is a great opportunity for a person looking to take the next step in his career! The training provided in this position will lead to being able to test to be an ASQ Certified Inspector. This is an **afternoon shift** position located in our Livonia, MI facility.

Qualifications

- High school diploma or equivalent
- Minimum 5 years' experience as a Machine Shop Quality Inspector
- Minimum 5 years' experience programming a CMM machine with PC-DMIS software
- Excellent shop math skills
- Proficient in Metric and English dimensioning as a Quality Control Inspector
- Proficient reading and interpreting blueprints
- Proficient in GD&T tolerancing
- Good computer skills, including Microsoft Word, Excel, and Outlook
- Excellent communication skills as a Quality Control Inspector
- Willing to work overtime and weekends when necessary as a Quality Control Inspector

Preferred Skills

- Experience inspecting automotive engine blocks and cylinder heads
- Some technical training or related coursework
- Prototype shop experience
- Knowledge of CAD
- ASQ Certified Inspector
