

IT'S YOUR WATER – LET'S KEEP IT CLEAN

Did you Know – Storm drains empty into our streams and rivers.

**Only Rain in
the Drain!**

- Sweep driveways, sidewalks and roads & place debris in trash can-do not wash trash or clippings in the storm drain.
- Check car for leaks, repair as soon as possible, & recycle used motor oil. Be sure to clean spills promptly & properly dispose of spilled oil or other petroleum based products. Contact the PPOC (798-9790) for more info.
- Pick up after your pet; if you think scooping poop is bad, try swimming in it.
- Take your car to the car wash instead of washing it in the driveway. If you do wash it at home, use a biodegradable soap.
- Never dump anything down the storm drain-remember if you don't want to drink it or swim in it don't put it in the storm drain.
